

The word "mud" is written in a bold, lowercase, sans-serif font. The letters are dark grey or black. The letter 'u' is partially obscured by a vertical band of orange splatters. The letter 'd' is also partially obscured by orange splatters. The background is a light grey, textured surface with several orange splatters of varying sizes scattered across it, particularly concentrated around the text and in the top and bottom corners.

#RideMUD

The logo for MUD is rendered in a bold, lowercase, sans-serif font. The letters are black with a textured, slightly distressed appearance. To the right of the logo, there are several orange splatters of varying sizes, some overlapping the letters. The background is a light, textured grey with a vertical strip of green and brown foliage on the left edge.

mud

What is **MUD**? Is it a new way of designing components? Is it a new **MTB brand** of components? Or is it a new way to offer MTB components suitable for any riding conditions?

In reality, it is a combination of all three.

MUD is focused on **manufacturing products** for a wide range of conditions, resulting in **better performance** for the majority of **XC** and **All Mountain/Enduro** riders.

A large, prominent orange splatter is located in the lower right quadrant of the page. It consists of a central dark orange mass with numerous fine, radiating lines extending outwards, creating a starburst or explosion effect. The splatter is set against the light grey background.

Elite or Amateur level

Cross Stem

Material:	2014 Alloy - 3D forged
Screws:	Cr-Mo
Angle:	84°
Clamp diameter:	Ø 31,7 mm
Fork Steerer:	1 1/8"
Clamp Height:	38 mm
Sizes:	80 to 130 mm
Weight:	125 g
Finish:	black matt anodized; orange/grey or grey color option
Note:	recommended mounting with MUD handlebars only

Cross Flat Bar

mu

New low-riser handlebar designed with a 0° up-sweep specific for 27,5" and 29" bikes.

Material:	UD carbon fiber
Clamp diameter:	Ø 31,7 mm
Width:	700 mm (cut to length; max 660mm)
Rise:	6,5 mm
Up sweep:	0°
Back sweep:	10°
Weight:	150 g
Finish:	carbon UD finish; orange/grey or grey color option
Note:	bar-end compatible

Cross Riser Bar

Material:	UD carbon fiber
Clamp diameter:	Ø 31,7 mm
Width:	700 mm (cut to length; max 660mm)
Rise:	15 mm
Up sweep:	4°
Back sweep:	9°
Weight:	180 g
Finish:	carbon UD finish; orange/grey or grey color option
Note:	not compatible with bar-end

Cross **Seatpost**

Material: full monocoque carbon seatpost;
2014 alloy saddle clamp

Diameter: Ø 27,2 & 31,6 mm

Length: 400 mm

Setback: 12 mm

Weight: 200 g

Finish: carbon UD finish; orange/grey
or grey color option

Note: compatible with International
Battery Adapter for Shimano D12

Cross **Zero**

Material: UD Carbon tube; 2014 alloy
head and saddle clamp

Diameter: Ø 27,2 & 31,6 mm

Length: 400 mm

Setback: 0 mm

Weight: 240 g

Finish: carbon UD finish; orange/grey
or grey color option

Note: compatible with International
Battery Adapter for Shimano D12

Border Stem

Material:	Alloy 2014
Screws:	Cr-Mo
Angle:	83°
Clamp diameter:	Ø 31,7 mm
Fork Steerer:	1 1/8"
Clamp Height:	38 mm
Sizes:	80 to 130 mm
Weight:	135 g
Finish:	black matt anodized; grey color graphics

mu

Material:	Alloy 7050
Clamp diameter:	Ø 31,7 mm
Width:	700 mm (cut to length; max 660mm)
Rise:	20 mm
Up sweep:	9°
Back sweep:	5°
Weight:	260 g
Finish:	black matt anodized; grey colored decals
Note:	compatible with bar-end

Border Flat Bar

Material:	Alloy 6061
Clamp diameter:	Ø 31,7 mm
Width:	700 mm (cut to length; max 660mm)
Rise:	6,5 mm
Up sweep:	0°
Back sweep:	10°
Weight:	235 g
Finish:	black matt anodized; grey colored decals
Note:	compatible with bar-end

Border Seatpost

mu

Material: Alloy 2014

Diameter: Ø 27,2 & 31,6 mm

Length: 400 mm

Setback: 20 mm

Weight: 260 g

Finish: black matt anodized;
grey colored decals

Note: compatible with Internal
Battery Adapter
for Shimano D12

Border Zero

Material: Alloy 2014

Diameter: Ø 27,2 & 31,6 mm

Length: 400 mm

Setback: 0 mm

Weight: 250 g

Finish: black matt anodized;
grey colored decals

Note: compatible with Internal
Battery Adapter
for Shimano D12

Over **Seatpost**

mu

 The logo for 'thirty five' features the words 'thirty' and 'five' in a lowercase, sans-serif font, stacked vertically and enclosed within a circular graphic element.

THIRTY-FIVE is the new frontier for all mountain/enduro handlebars and stems. In recent years, handlebars have trended significantly wider so that the oversized diameter bolsters the interface between the stem and handlebar.

Thirty-five guarantees a greater impact strength and increases fatigue resistance.

Material: 7050 Alloy; 3D forged

Diameter: Ø 27,2 & 31,6 mm

Length: 400 mm

Setback: 20 mm

Weight: 260 g

Finish: black matt anodized;
grey colored decals

Note: compatible with Internal
Battery Adapter
for Shimano D12

Over Stem

mud

Material:	Alloy 2014
Screws:	Cr-Mo
Angle:	82°
Clamp diameter:	Ø 35,0 mm (THIRTY-FIVE)
Fork Steerer:	1 1/8"
Clamp Height:	40 mm
Sizes:	60 to 110 mm
Weight:	140 g
Finish:	black matt anodized; grey colored decals
Note:	recommended mounting with MUD handlebars only
